STANLEY HOUSE,

WATER STREET, AUGUSTA, ME.

G. W. RICKER, would respectfully announce to the Traveling Public that he has re-opened the Stanley House, Augusta, and furnished it throughout with NEW AND ELEGANT FURNITURE, and made every arrangement necessary to continuing it as a First Class Hotel.

This is the most centrally located House in the city, being directly opposite the Depot, and in close proximity to the steamboat landing, Court House, Post Office, and but a few minutes' walk from the State House.

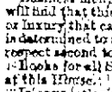
Business men or persons traveling for pleasure, will find that this House affords every convenience or luxury that can be desired, and the Proprietor is determined to spare no pains to make it in every respect second to none in the State.

☞ Books for all Stages leaving town will be kept at this House.

In connection with the above are good Stables with attentive and careful Hostlers.

THE HATCH HOUSE,

Main Street, Bangor, Maine.



This House has been thoroughly repaired, refitted, and refurnished throughout with New Carpets, Furniture, Beds, and Bedding, and is now open for the reception of company, under the charge of the subscriber.

It is a large, commodious, and well furnished House, situated on Main Street, near the centre of the city, and within a short distance of the Steamboat Wharves and the Depot of the P. & K. Railroad, to and from which Coaches are always in readiness to convey passengers.

Its numerous advantages to strangers, and particularly to those visiting the city on business or for pleasure, renders it one of the most desirable Houses in the city.

Connected with the House is a large and commodious Stable, in charge of competent and faithful hostlers.

By strict personal attention to the comfort of its guests, the proprietor hopes to receive a liberal share of patronage.

TO CONSUMERS OF

PICKLES.

BELIEVING that the Public have become tired of purchasing Pickles in Packages, holding, in many cases, fifty per cent. less than represented, we have commenced putting up, in addition to our present second size jar, an article which we are labelling "WM. UNDERWOOD & CO'S EXTRA PICKLES," and also filling into full sized jars, which are legibly stamped in the glass, with their exact contents in ounces—thus enabling the consumer to verify their truth.

These Extra Pickles are put up with every regard to style, quality and flavor, and will be sold at fairly remunerating prices.

We have made no change in our manner of Greening Pickles, never having resorted to any deleterious means to attain that end. The Cider Vinegar which we use is made from sound fruit, and is entirely free from Vitriol or any other mineral acid, which is not the case with that used in most brands of English Pickles found in this country.

ANTAGONISTIC

To Prejudice and Empiricism!

OLD DR. CULVERWELL'S

(Member of the Royal College of Surgeons (1827,) Licentiate of the Hall (1828, and 28 years Medical Referee, &c.)

Radical Regenerator,

FOR SEMINAL WEAKNESS,

In all its forms, as Nocturna and Diurnal Emissions, Nervous Irritability, Premature Decay, Loss of Vigor, Impotency and all diseases arising from early indiscretion.

This excellent Remedy, discovered by the world renowned Dr. Culverwell, in London, the most successful practitioner of his time for the last 30 years, is now for the first time offered to the afflicted in the fullest confidence of its extraordinary virtues. Its salutary effect is almost instantly felt, and it will doubtless at once supersede all other means resorted to, medical, surgical or otherwise, to arrest and to cure this awful disease. A single trial will convince the most sceptical, that a safe and perfect cure may now be had at the expense of a few dollars, which up to this date could not be procured for all the gold of the world. The heavy expenses incurred in bringing this article before the public could not be risked, were its superiority over every means heretofore employed for the same purpose not a sure guarantee that its employment by one person would, through recommendation, result in an overtaxed sale to many.

Dr. Culverwell's admirable and entirely novel plan of treating these diseases, is, in the interest of humanity, recommended to physicians throughout the land, to whom every facility will be afforded for testing the wonderful efficacy in their private practice.

Full and plain directions for all the different varieties of the complaint accompany Dr. Culverwell's REGENERATOR REMEDY, so as to enable every one to treat himself or herself successfully. Price $2, on receipt of which it will be forwarded *by mail*, free of postage, to any part of the country. Address, Messrs. BRIDGMAN & CO., Druggists and Apothecaries, 168 Grand-St., New York, Sole Agents for the United States and Canada. Nov. 19, d&wly.

LINCOLN'S

WATER PROOF BLACKING,

AND LEATHER PRESERVATIVE.

Keep your Feet dry, and you will seldom need a Physician.

IS it not a truth that when the feet are often wet, it is one of the greatest causes of colds and consumption? It is a truth that when leather is often wet and dried, it soon becomes hard, stiff, and cracks; but when it a water-proof this is remedied. By the application of this preservative, it remains soft, and effectually impervious to water.

After being engaged for 25 years in the manufacture of leather in all its branches, and being often troubled with wet feet myself, I was led to experimenting on different compositions, and found it easy to make it water-proof, but at the same time extremely injurious to the leather. At last by a chemical process, I discovered a preparation which perfectly harmonizes with the astringent properties with which leather is tanned. It will not only make leather water-proof, but it likewise softens the leather, and renders it

Positively wear twice as long.

I have now used it for three years, and a large part of that time have worked in a wet Tannery, with my boots constantly in water, and have not had my feet wet during that time. I can therefore in all confidence, recommend it to the public as the best article in the market.

GREAT

American and Foreign Office

—FOR—

Securing Patents for Inventions.

AGENCY FOR BUSINESS WITH THE U. S. PATENT OFFICE, WASHINGTON.

R. H. EDDY,

No. 76 State Street, opposite Kilby St.,

BOSTON.

IMPORTANT INFORMATION TO INVENTORS.—The subscriber, (late Agent of the U. S. Patent Office under the Act of 1837,) determined to present advantages in applying for patents, superior to those offered inventors by others, has made arrangements, whereby on applications prepared and conducted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection,

This Agency is not only the largest in New England, but though it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE that the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber, during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanics works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procurement of patents in this and foreign countries, prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents. All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Copies of the claims of any patent furnished for one dollar. Assignments recorded at Washington. Patents secured in Great Britain, France, and other foreign countries, through agents of the highest respectability.

R. H. EDDY, *Solicitor of Patents.*

"During the time I occupied the office of Commissioner of Patents, R. H. EDDY, Esq., of Boston, did business at the Patent Office as Solicitor for procuring Patents. There were few, if any, persons acting in that capacity who had as much business before the Patent Office, and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,

Late Commissioner of Patents.

(From the present Commissioner.

"August 17, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the Office, as Solicitor. He is thoroughly acquainted with the law, and the rules of practice at the office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHARLES MASON,

55,000 Acres Selected

Pine and Farming Land

IN MICHIGAN,

THE SAINT MARY'S FALLS

SHIP CANAL COMPANY

OFFER for sale these Lands, which are principally situated in the lower Peninsula of Michigan, on and in the vicinity of the large streams and rivers, easy of access, and selected under more favorable circumstances than

Any other Western Lands,

Were chosen with particular reference to their location on the streams and the quantity and quality of the pine timber. On this account,

For Lumbering Purposes,

They are very desirable and valuable. The streams are large, and capable of floating logs at all seasons of the year, with harbors at their mouths, on the Lake. At many of these points settlements and extensive lumber operations are formed and conducted with uniform success, proving already the most profitable lumber operations in the Union, and having access, by means of Lake navigation, to

CHICAGO, DETROIT,

and the other great Lumber Markets of the country.

Tracts of from 40 to 40,000 acres

will be found at convenient points, affording opportunities for either a small or the most extensive lumbering operations. A large portion of these Lands are among

The Best Farming Lands of the West,

and as they contain enough of the PINE AND PINE TIMBER to more than pay for the land, fencing, moderate buildings, and other improvements, offer very superior inducements to farmers seeking a western home.

The Climate is Mild and Equable,

and soil and climate both suited to all the grains, fruits, and produce raised in the most favored portions of the West.

Companies of 10, 15 or 20 Persons,

with their families, will find location just suited to the formation of a settlement, with good water power, and convenient access, to neighboring settlements.

TERMS:

One-fifth will be required at the date of sale, and the balance in one, two, three and four years, with interest at six per cent. per annum.

The Company have full and complete descriptions of each tract of their lands, from actual exploration by several different parties, with accurate maps of each township, according to government surveys. These may be seen at the

Land Office of the Company, in Detroit, Michigan.

Copies of Maps, Field notes, and other information concerning the lands will be furnished, without charge, to those wishing to purchase.

☞ Large Maps of the State, showing the lands of the Company, will be found at public places in most of the principal towns in the Eastern and North-western States. GEO. S. FROST,

The Leap from the Main Brace.

(Concluded.)

"Will you give me your address, old man, and permit me to visit your daughter to-morrow? But you must also give me your word of honor that you will not inform her, or insinuate to her in any manner whatever, that I am a rich man." The old man held out his hand. "I give you my word; I am anxious to convince you that I have spoken the truth. My name is William Schmidt and here is my address," giving him, at the same time, a bit of paper which he drew from his pocket.

"And my name is Karl T———, am the son of Anton T———. Take these bank-notes, but only on condition that you do not leave this house until I fetch you from it. Waiter! a bed-room for this gentleman. You require rest, Herr Schmidt. Good night! To-morrow you will see me again; but, under whatever circumstances this may happen, do not forget the word you have given me."

The name the young man had mentioned, as well as the large sum, struck the old man with astonishment; but before he could recover himself his companion had left the house, and the waiter came to light him to his room, where, wearied and worn out, he soon sank into a profound sleep.

II.

In one of the narrow and ill-lighted streets of Sachsenhausen, in an attic of a lofty and unsightly house, sat a pretty *blondine*, about twenty years of age, busily employed with her needle. The furniture of the room was poor, but clean and tasteful; the girl's whole dress would not have fetched many kreutzers; but every article was neat, and fitted her as well, as if it had cost hundreds. Her fair locks shaded a face brightened by a pair of eyes of heavenly blue, which bespoke a peaceful mind and a pure soul. The spirit of order, modesty and cleanliness reigned in everything around her. Her features were delicate, like those of one nobly born; her eyes betrayed sleeplessness and anxiety, and ever and anon a sigh rose from the maiden's bosom. Suddenly steps were heard on the staircase, and her face lighted up with joy; she listened and doubt seemed to overshadow her brow. Then came a knock at the door, which made her tremble so much that she almost wanted the courage to say "Come in!" A young man, shabbily dressed, entered the room and made a low but awkward bow.

"I beg your pardon, Miss," said he, "does Herr Schmidt live here?"

"Yes, sir. What is your pleasure?"

"Are you his daughter Bertha?"

"I am."

"Then it is you that I seek. I come from your father."

"For heaven's sake, where is he? What has happened? Something must have happened—this is the first time he has staid away all night."

"The misfortune is not very great."

"Oh, my poor, poor father, what shall I hear?"

The young man seemed to observe the visible marks of anxiety with great interest; then, looking round the room, he said: "Do not be frightened, my dear girl; it is nothing of great importance. Your father met last night an old acquaintance, who invited him to a tavern.—They had some wine together; but when the landlord came for his bill, your father's friend had decamped, and left him to pay the score. He had not sufficient money for this; and now the man will not let him go until he is paid, and declares that unless he gets his money he will send him to prison."

"To prison!—my father to prison!" exclaimed the girl. "Can you tell me how much the bill amounts to?"

"Three florins, and a half."

"O God!" sighed the girl, "all I have does not amount to even one florin; but I will go at once to Madame Berg, and beg of her to advance me the money."

"Who is Madame Berg?"

"The milliner for whom I work."

"But if Madame Berg does not advance the money—what, then?" The girl burst into tears.

"I am much afraid she will refuse. I already owe her one florin, and she is very hard."

"For what purpose did you borrow the money you owe her?"

The girl hesitated to reply.

"You may trust me; I take the deepest interest in your misfortunes, and I sincerely wish I could assist you; but I am only a poor clerk myself. Tell me for what purpose did you borrow that florin?"

"Well, my father is very weak, and occasionally requires strengthening; I borrowed that money to get a quarter of a fowl for him."

"Under these circumstances, I fear Madame Berg will not give you any more. Here is one florin, but that is all I possess. Have you any valuables upon which we could raise the money?" Bertha considered a moment.

"I have nothing," she said at length, "but my poor mother's prayer book. On her death-bed, she entreated me not to part with it, and there is nothing in the world I hold more sacred than her memory and the promise I gave her; but still, for my father's sake, I must not hesitate." With a trembling hand she took the book down from the shelf. "O, sir," said she, "during many a sleepless night I have been accustomed to entrust the secret thoughts of my heart on the blank leaves at the end of the book. I hope no one will ever know, whose writing they are; will you promise me that?"

"Certainly, my dear Bertha. Do not alarm yourself; I will take care that your secrets shall not be profaned. But now get ready, that we may go."

Whilst she left the room to put on her bonnet and shawl, Karl T——— ancee over the writing of the girl in the book, and his eyes filled with tears of emotion and delight as he read the outpourings of a pure and pious heart; and when they had left the house together, and she was walking beside him with a dignity of which she seemed entirely unconscious, he doat upon her looks of respect and admiration.

They first went to Madame Berg, who did not give the advance required, but assured the young man that Bertha was an angel. Certainly she praised Mr. T——— valued higher than the money he had asked for. They pawned the book, and the required sum was made up. Bertha was overjoyed.

"But if you spend all your money to-day," remarked the young man, "on what will you live to-morrow?"

"I do not know, but I trust in God. I shall work the whole night through."

"You trust in God firmly, and He will help you," exclaimed Karl with an enthusiasm which almost betrayed the emotion he felt.

When they came to the tavern, the young man went in first to prepare old Mr. Schmidt for the part he wished him to act; then he fetched Bertha. It is impossible to describe the joy he felt when he saw the young girl throw herself in her father's arms, and press him to her heart.

"O father," said she, "what a dreadful night

Will the South Yield Kansas?

Not without a desperate struggle, we think, and certainly *not without an disturbance from the democratic party and from the incoming administration*. "HAT CUBA SHALL BE ACQUIRED is an off-set in favor of the slave interest, and one which would at once give that interest the preponderance in the Union.

If, from the formidable demonstration made by the Republican party, and the determined energy of free emigration, freedom should be able to overwhelm slavery in Kansas, in spite of all the obstacles interposed by the South and by the ruling democratic politicians, the South would yield the prize most reluctantly, as will be seen from the sentiments of an extract below, which embodies the sentiments of even the moderate men of that section. She would never yield Kansas at all, without serious attempts at dissolving the Union, and perhaps civil war, except possibly upon this very contingency of having the great and populous slave territory of Cuba added at once to the strength of the South. Cuba might be immediately cut up into three or four slave States, and with the following generation of one or two more provinces from Mexico, and Walker's slave empire in Central America, the slave oligarchy could still hold the power, and continue to "rule the Union," for generations to come. If the energies of freedom are found equivalent to securing Kansas, the game of the South and of the administration will indeed be lost, to live to the South slaveholding Cuba. The strong grasp with which they will cling to Kansas, however, is clearly foreshadowed in numerous declarations like the following:

[From the New Orleans Delta.]

Up to a late period the South was fighting her battle under that most fatal disadvantage, the want of a saving faith, of a settled conviction founded upon sound logic and just principles. Her concessions in argument were quite as large as her concessions of territory, and would have resulted in inevitable ruin to her cause if she had not changed her attitude from that of an abjectly defensive to unflinching defiance and a preparation to make defence effective by carrying the war into Africa if necessary. Experience has sufficiently shown that the latter was the only safe policy; and the instinct of common sense teaches that we must vindicate the existence, perpetuation and extension of slavery upon *principle*, or give up the contest. The institution must be defended in its integrity, or not at all. If it is right and just, and wholesome, it should be constituted, perpetuated and extended; and no man, North or South, and no party's representative or organ have any right to say *nay*. *Therefore, Kansas should not be given up, it is one of the most important outposts of the South; we have planted one foot there, but it will not be enough to the other, it must be firmly in it also.* A glance at the map shows its geographical value and importance. Surrender Kansas, and we must prepare to give up Missouri. Free soilism will cut into her territory from three sides at once like a cancer, and must finally slough off and be lost. The disease would then extend its cancerous fringe over the northern border of Arkansas, the Indian territory and Texas, and through New Mexico, extending to the Mexican frontier, would at last, assisted by the abolition policy of Great Britain in the West Indies, entirely surround us, and choke her recreant self destruction and the agonies of a slow death.

The South cannot ignore Kansas and be true to herself and her destiny. The non intervention doctrine may do as a party expedient but it will not save us. Passively, is not only despised by fanaticism—it invites attack. Like a rebuke tempest it will continue to hover over our borders like a murky cloud; it is stood, and no silk of down, that can dispossess it of its lightning and render it harmless. Or it may be compared to a phantom; if we fly from it in terror, it grows to go to the skies; but, if we approach it boldly, it vanishes from the sight.

The faith of the South, to be triumphant, must be active and militant; with faith in herself, faith in her cause, and faith in her destiny, nothing can defeat her—her faith will be synonymous with fate. Kansas will test if she have this kind of faith—the faith which inspires Atchison, Stringfellow, Whitfield and Titus, or only the faith of words and phrases and the solemn humbuggery of mere politicians. Will they prove equal to the test? *Let the Southern people answer.*

THE TRANS-ATLANTIC TELEGRAPH.—The project of uniting the two great continents by telegraphic wires is gaining ground every day in the confidence of scientific and business men. Its entire feasibility is now scarcely doubted. The project forms the theme of an editorial in the London Times, which paper undertakes to prove that the enterprise is not alone to be one of utility, but of profit. A short time since, Mr. Cyrus W. Field requested the Admiralty to make additional soundings, which has been complied with, and a war steamer under the command of an experienced naval officer, is to enter upon the work at once. Mr. Field has further invited the principal manufacturers of telegraphic wires to send in estimates for the manufacture of the cable, to be constructed according to pattern, at the rate of (so many) miles per day, with security given that the whole shall be ready for shipment by the first of July next, under a heavy penalty per diem for every day's detention beyond that date.

MURDER.—Considerable excitement was created at Albany on Wednesday morning by the discovery of the murdered body of Mrs. Owen Bulger, on the quay. Her body bore marks of a strangulation and other violence. She was a married woman, and the mother of five children. Her husband was absent from home at the time. No clue has been obtained to the perpetrators of the crime.

The publication of the Piscataquis Observer has been resumed after a few weeks' suspension.

A writer in the Democrat, signing himself "J," (which, we take it, is the "short" for our City Recorder,) is astonished at the "extraordinary tone" of a letter from our correspondent at Augusta, giving an account of the Buchanan celebration in that city. According to the information we get from various sources, the "tone" of the speeches, on that occasion, and the character of the proceedings, were quite as extraordinary as the tone of the letter. All the statements of our correspondent are corroborated, not only by our private information, but by the account given in the Kennebec Journal. The Locofocos, we believe, had no particular cause to complain. Nothing indecent is charged upon him. His proceedings and his speeches were those of a perfect gentleman, compared with those of some who make higher pretensions.

SABBATH SCHOOL ANNIVERSARY.—The Forty-Third Anniversary of the First Parish Sabbath School was observed on Sunday evening last, by exercises at the church. An interesting report of the work of the past eleven months, was made by the Secretary, Mr. Wm. P. Hubbard, from which it appears that the whole number of scholars now on the rolls is 220. The contributions of the school for benevolent objects, during the eleven months, amounted to something over $102, and $60 was subscribed for the Mission Ship which is to be built by the children, this subscription will be largely increased.

After the reading of the report, an impressive, logical and eloquent address was delivered by Mr. Ephraim Cummings, of the Theological Seminary. And the exercises closed with an original hymn—"The Mission Ship."

This Sabbath School is the oldest in the State, having been established in 1813.

In City Council.

MONDAY AFTERNOON, Dec. 1.

A communication was received from Rev. N. E. Cornwell resigning his office as a member of the Superintending School Committee.

The Committee on Accounts and Claims made a report on several bills, and bills were ordered to be paid.

Same committee recommended that $12 be paid to J. R. Sawyer, for damages to his horse and wagon by reason of a defect in a highway. Order passed accordingly.

Reports of Street Engineers of new laying out of Wiley St., Howard St., and Buck Street, and Streets established accepted.

Order passed to pay $37 to Smith & Morris, balance due on contract for building school houses.

Order passed for future meetings at 7 o'clock P. M., instead of 2 P. M.

In Board of Aldermen.—Benj. H. Boardman and Benj. Adams were drawn as traverse jurors for the January term of S. J. C.

BURNING.—A Michigan man recently sold the Great Western Railway company of England $400,000 worth of American railway stocks; the Yankee agreed to take for pay two steamers, the Canada and the America, which had already run the English company $100,000 in debt; the directors signing a contract to deliver the vessels in Lake Erie. It is now found that the Welland locks are too small to admit the steamers, and the purchaser now claims tremendous damages from the John Bull for non-fulfilment of contract; the latter are badly taken in; whether intentionally or not does not appear.

The Newburyport Herald says that the pollock fishery, as pursued by their fishermen for a few weeks past, has been very successful. The crews of the vessels have received the very handsome sum of $25 to $40 per week per man.

A large hearted gentleman in Boston has contributed $5000 towards liquidating the debt of $36,169 of the American Board of Commissioners for Foreign Missions. A gentleman in Connecticut has given $1000 towards the same purpose, and three other persons have given $1325.

German Association.

Mr. Editor:

Allow me to say to the public through the columns of The Whig and Courier, that your German fellow citizens have formed themselves into a voluntary association for the purpose of religious and mental culture.

To this end they have secured the services of Professor S. Myer, a gentleman of undoubted religious character, and of high literary attainments. Prof. Myer is immediately from New York but a native of Strasburg, France, where he has resided until recently.

The Association is formed under the name and style of the "Lutheran Association" and its principal object, aside from its religious character, is the revival of the Hebrew language in a community where the same has unhappily become nearly extinct. The members of this association have held one meeting where their objects and purposes were fully set forth by Prof. Myer, and also by A. Myerson of this city, who is the President of the Association. Prof. Myer will not confine himself exclusively to the society of his immediate charge, but tenders his services to the community in general.

To will be happy to impart instruction to any who may desire it, in the Hebrew, German, or French languages either at their owns residence, or at the residence of Albert Myerson on Exchange Street, where he at present resides.

OLIVIA.

A TARTAR RAN.—The Norfolk Courier describes the following incident, which it declares occurred in the cellar of a wine dealer of Union.—On Saturday morning as Mr. ——— was inspecting his stock as usual he was much surprised to find the cellar flooded with brandy, which had escaped from a cask containing 100 ollrns. After a long examination into the cause of this mishap, he discovered the delinquent, dead drunk in a corner. It was an immense rat, which, said, is supposed become entangled in the cock of the cask, and in its struggle had turned it and made a slight opening, through which the brandy had gradually escaped. The animal has also thrown down a gallon of liquor which probably put an end to its life.

New Publications.

NEW WORK.—Messrs. Phillips, Sampson, & Co. Boston, are about issuing another work of great historical value and interest—being *Robertson's* History of the Reign of the Emperor Charles the Fifth—with a continuation of the Cloister life of the Emperor after his Abdication, by the American historian, Prescott. In 3 vols. 8vo. with a fine portrait engraved from Titian. Price $6.75.

Robertson's great work, the History of the Reign of Charles the Fifth, is only a history of that reign, the author devoted less than four pages to the part of Charles's life subsequent to his abdication. Yet this is, in some respects the most curious and interesting portion of his life. But, in truth, Robertson had not the materials for writing it. These materials existed only in the Archives of Simancas, which until very recently, have been closed. Now that access to them has been given to such persons as have had interest with the government to obtain it, Prescott was have been carefully explored with reference to the monastic life of Charles. The result has been to exhibit it under a very different aspect from that in which it has hitherto been presented to the public. The publishers of a new edition of Robertson's work, aware of this circumstance, have been desirous to give greater value to their volumes, by enriching them with the fruits of the late discoveries in regard to the Emperor's latter days. For this purpose they applied to Mr. Prescott to furnish them such a continuation as should give greater completeness to the original work of Robertson.

Robertson's history, with this addition by Mr. Prescott, is now offered to the public, comprised in three volumes, and printed uniformly in size and style, and at the same price per volume, with Mr. Prescott's historical works. A new portrait of Charles the Fifth, richly engraved from a picture of Titian, is prefixed to the work.

THE ARKWRIGHT SCHOOLS.—Messrs. Gould & Lincoln of Boston have issued as other of those entertaining and popular stories, for children in which moral virtues and manly qualities are inculcated and made attractive through the medium of pleasant narrative. "Waterman, or the Manly Boy" is intended as its title indicates to inspire the youthful reader with a love for true manliness of character, and to incite him to emulate noble examples. The book is handsomely illustrated and well suited for a holiday present, or as a reward for good conduct.

PULPIT THEOLOGY, UPON RAMSDEN AND A CHRISTIAN LIFE. By William Beveridge, D. D., Lord Bishop of St. Asaph. 2 vols. pp. 270, 342. New York: T. Carter & Brothers.

The name of Bishop Beveridge as a pious and learned author, a sincere and devout christian and one of the ablest practical writers which his church has ever had, is amply sufficient to recommend these volumes to religious readers—by whom, were particularly those of the evangelical sects so called, to whose tenets he held. These christian reflections have ever been regarded of the highest value. The Thoughts are largely of a practical nature and although written a century and a half ago, are still applicable to nearly all the ordinary situations and relations of life. The first volume contains Private Thoughts upon Religion, Judges of Into twelve Articles, with Practical Resolutions formed thereupon. Also "Thoughts upon Christian Education" and upon The Knowledge of God." The second volume—Thoughts upon The Mystery of the Trinity, Worldly Riches, Self Denial, Striving to enter at the Strait Gate, Imitation of Christ, Salt and Election, The Beatific Vision—The Advantage and Necessity of Frequent Communion. There are two Introductory Essays, by Rev. H. Stebbing.

The work is for sale by E. F. Duren.

A SPEAR HAS BURST BY STEAM.—The French steam-packet La France, during the month of October, was burst up in Bahia harbor. Frenchmen are acute in chemistry, &c.—but sometimes overdo a work, as will be seen, by-and-by. Rubbing in lieu of steam, was an auxiliary to coal,—an invention of M. Trembley,—has been in use in the French navy for some time past—and to successful use, it is said—the reason for employing it here in addition to steam, is because the boiling point is very low, viz. 98°; but it appears to have been forgotten, in sending a vessel with coal to Brazil, that she would have to pass through a temperature much higher, even in the shade, than the boiling point of this most inflammable liquid; and that therefore it could not exist in the ordinary storage tanks. The result of this want of foresight was, that, he-pitcher, floating about in a state of vapor, caught fire, burned a fine ship, and destroyed much property. It was most providential that the fire did not occur in harbor. At sea it would have been truly an awful occurrence.

TELEGRAPHIC

TO THE DAILY WHIG AND COURIER

Congress.

WASHINGTON, Dec. 1.

The galleries and lobbies of the capitol are crowded with spectators, and good humor is everywhere prevalent.

There is a large attendance of members of both houses, and messages are being interchanged preliminary to business and joint committees are appointed to wait upon the President.

SENATE.—All the members of the Senate but 12 were present.

A message was received that the President would communicate his annual message tomorrow, about noon.

The Senate then adjourned.

HOUSE.—About 200 members were present. Mr. Hodges of Vermont, and Messrs. Allen and Morrison of Illinois were qualified.

Mr. Phelps presented the credentials of Mr. Whitfield, and moved that he be sworn in as delegate from Kansas.

The credentials were read, Gov. Geary certifying to the fact that Mr. Whitfield was elected as the delegate from Kansas, on the 1st Monday of Oct.

Mr. Phelps asked that the usual course be pursued.

Mr. Grow objected, and was about to state reasons, when Mr. Phelps said it was known that a vacancy had existed in the representation of Kansas. Mr. Whitfield's credentials had been presented and read, and this entitled him to have the oath administered to him. At the last session the seat of the delegate from New Mexico, Nebraska and Kansas were contested, and their credentials received and the oath of office administered to them severally, without objection being made.

Mr. Grow still objected.

Mr. Phelps said the course proposed to be pursued by Mr. Grow was contrary to precedent with one exception, and that was the exception to the rule, he refer to the New Jersey contested election.

The Speaker observed that objection being made, it would be the duty of the chair to submit the question to the House, whether the gentleman from Kansas be sworn as delegate.

Mr. Campbell of Ohio, suggested to Mr. Grow, whether, as this was the short session, and there was much unfinished business, it would not be better to allow the matter to pass over as it did last session on a similar occasion. He did not see that anything could be lost.

Mr. Grow, "I cannot accede to the request."

Mr. Campbell, "I have done my duty."

Mr. Grow, in reply to Mr. Phelps, said the same he proposed was not unprecedented, and there were strong cases in the books to justify it. In that of the New Jersey contested election, neither set of delegates were admitted until the Committee on Elections after two or three months reported. The House, in session, sent a commission to Kansas to investigate the affairs of that territory, and after full debate on the House decided that no adjudication had been held, and hence Mr. Whitfield was rejected from his seat. What charge had taken place? Its legislation stands as it did six months ago, when the delegate was rejected.

The Legislature was a usurpation—its acts characterized by unprecedented tyranny and unconstitutional wrongs, and its laws the blackest and most odious to be found among those of Dominion. The House was now asked to overturn its decision and give validity to tyrannous acts forced on an unwilling people by the arm of the government being used to aid the invaders of their rights from neighboring States.

Mr. Phelps said he would, at the proper time be willing to defend the validity of the legislature and laws of Kansas. At the last session Mr. Whitfield was sworn in and his credentials referred. The committee reported directly to his taking his seat, and in favor of Mr. Reeder. A vacancy was created. Mr. Whitfield was elected to fill that vacancy. Mr. Grow proclaimed that this question was decided last session. While voting against Mr. Whitfield, he *assigned* as a reason that he was elected under an unconstitutional enactment; but he voted for Mr Reeder to take out the seat of all law.

Mr Grow explained. He had stated that the people of Kansas were entitled to representation, and he desired to bestow it in the way as proper under the peculiar circumstances.

Mr Phelps said Mr Grow's position was that the people of Kansas are entitled to delegates. Now who was there to contest the right of Mr Whitfield? With what scene could he oppose Mr Whitfield, there being no contestant of the seat. Where was his love for the people of Kansas? Votes were cast for no other than Mr Whitfield in October.

The question being put, "Shall Mr Whitfield be sworn in?" was decided in the negative—97 to 94. (The Americans voted yea.)

Mr Grow moved a reconsideration, and to lay that motion on the table.

Undiscussed motions to adjourn, for a call of the House, &c. by the friends of Mr Whitfield, order, as it was said, to postpone action on Mr Grow's motion until the arrival of absentees.

At 6 o'clock various gentlemen paired off, hunger and fatigue serving as excuse.

Mr Wilson said he was not willing to be punished by being kept here because others chose to pair off. His motion for a call of the House prevailed, and 135 members answered.

The doors were closed, and excuses were heard for absentees—some of them being of a humorous character excited excessive laughter. During these proceedings, Mr. Wilson spoke of the exposure of the reputation of Congress to the ridicule of the people and the derision of the public press.

The sergeant-at-arms was by order directed to bring the absentees to the bar of the House. Mr Jones inquired if while he was executing the order those who had been paired off the same could get their dinners. (Laughter.)

The Speaker said no.

While the Clerk was calling the roll on the motion to adjourn, he was frequently interrupted by the sergeant-at-arms announcing the arrest and production of certain absentees. Several gentlemen moved to take up the criminal docket.

The absentees brought up were ordered to be discharged from custody on payment of the fees of the sergeant-at-arms, $2 each.

Cries of "Fork over!" "Fork over!" and laughter all over the house.

Mr Mace who was among those brought up said he was willing to be discharged without payment of the fees and accept the substitute of solitary confinement. (Laughter.) He would come at half past 3 o'clock in every orderly manner, leaving members here going out and taking a horn and placing themselves in such a condition that they did not know what they were driving at. (Laughter.)

Mr Trafton did not think they should take advantage of his honesty. He had just returned from dinner when the Sergeant-at-arms opened the door and let him in.

Mr Houston (to those standing) "Swear them, swear the prisoners!" (Laughter.)

Mr Colfax would discharge them on the pledge that they would hereafter vote for an adjournment.

At a quarter past 7 an adjournment was obtained by one majority.

WASHINGTON, Nov. 30. Advance copies of the message—to be distributed to the press simultaneously with its delivery to Congress—have been sent to the Postmasters at the following cities: Baltimore, Philadelphia, New York, Albany, Buffalo, Cleveland, Columbus, Cincinnati, Chicago, Boston, Portland, Pittsburg, Richmond and Charleston.

The Secretary of the Treasury is in readiness to purchase until the 31 of March, unless the amount is sooner obtained, $1,000,000 of United States loans, giving the following premiums: for the stock of 1842, 10 per cent; for stock of 1847 and '48, 6 per cent; and for stock of 1856, 6 per cent.

It is understood now that the President will not send his message before Tuesday.

The New York Herald correspondence says: A move is on foot here to go into an election of a new Speaker on Monday, to supersede speaker Banks. The House can at any time, change its officers, and a strong feeling exists to relieve Mr. Banks of his official position, should there be sufficient force to effect it.

Card to the Public

Bickford defines his position!

I MUST TELL my numerous friends, the good humored public, that my arrangements for the winter season are now complete, by which I am to be daily supplied with abundance of OYSTERS, FRESH FISH, CHOICE FRUIT, and other articles for the supply of my Stalls at the Market House.

Speaking of OYSTERS—I wish it understood that I furnish them raw, or cooked in any style, cold or hot, at my Eating Room, or to families or parties at any time or hour they please. If you wish to refresh your friends with a really nice Oyster Stew let Bickford know it, and it shall appear upon your table, as if by the enchantment of Aladdin's Lamp. So, too, of the richest PASTRY, in all varieties.

FRESH FISH, in all their varieties, in their season.

FRUITS AND VEGETABLES.

☞ Bickford is devotedly thankful for past favors, and looks hopefully forward to the future. Allow me to say parenthetically, and almost pathetically, that the times are getting rather hard, and therefore it is all important that those who have neglected to pay their little bills, should do so at once, for I wish to be on friendly terms with every body.

My Eating Stall at the Market is clearly supplied, and will be found exceedingly convenient for strangers, gentlemen and ladies, and for those detained from their meals.

Call in—call out—and all will be well.

Ever and forevermore,
THOMAS BICKFORD.

California Steamers,
Carrying the United States Mail.

5th and 20th of each Month.

Greatly Reduced Prices.—50 lbs. Baggage Free.

Through Tickets, including passage of the Isthmus, via Panama R. R.

By order of the Postmaster General, the United States Mail Steamers will hereafter be despatched from New York direct to Aspinwall, on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamers *without any extra expense*. This is the *only* one giving entire Through Tickets, including *meals* on the Isthmus.

Transit made in *four hours, entirely by daylight*, thus avoiding the great exposure to sickness in open boats to fever and ague, and 200 miles of dangerous lake and river navigation, over rocks and shoals.

Arrangements have now been completed so that the regular U. S. Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus securing passengers by the Mail Line a *sure and short* passage, without any detention on the Isthmus.

☞ *Tickets must be signed by one of the Company's Agents before they will be recognized by the Agents at Panama*, and Tickets thus signed can be obtained of the *only authorized Agent* for the Atlantic and Pacific Mail Steamship Companies, in this city

Cheap & Convenient Building.
Door, Sash and Blind Factory.
A. DUNBAR

HAS been very successful in completing several contracts for Door Frames, Doors, Window Frames and Sashes, and blinds, for good dwelling-houses and other buildings to be erected in this city the coming season. He has excellent workmen in his employ, and has superior stock, so that he is now able to supply to those about to build the best articles of Door Frames, Window Frames, Sashes, and Blinds, made to any dimension, and of superior quality, either for a house building or for a less quantity. The trouble and expense of building is very much lessened by having these articles made separately, so that the carpenters have only to put them in their places in the structure.

This business has now become so well systemized that only a small margin is left in knowing beforehand the cost of a dwelling-house, while the work is of a uniform excellent quality.

Any one who desires can examine specimens of the work at the factory, near the Rose Place, or at the store of M. S. Jackson, on Exchange st., and at either place any article may be obtained in large quantities ordered.

Mr. Dunbar is also prepared to furnish Window Blinds ready painted; and will hang them at the shortest notice.

By long experience, and by determined perseverance, the subscriber is now enabled to suit his customers, both in quality and price, and as well organized is the business that no man should now think of building in the old and slow and imperfect methods.

HAIR RESTORATIVE.

It has Worked Miracles!

THAT ALL THE BALD AND GRAY can be restored perfectly to original growth and color, so far as their locks are concerned, does not admit of doubt; besides, it will cure every possible disease of the scalp, whether developed as dandruff, itching, or in the shape of cutaneous eruptions—prevent scald-head—and, in no possible case will it fail of curing, if it by magic, nervous or periodical, Head-ache, and if used twice a week by the young regularly, it will preserve the color, and keep the hair from falling to any imaginable age. Read and judge:

Andover, Worcester Co., Mass., Nov. 1855.

PROF. O. J. WOOD, Old Colony, Sir:—I take pleasure in bearing voluntary testimony to the magic effects of your wonderful Hair Restorative. As far back as 1851, my hair commenced falling off, until the top of my scalp became bald and smooth as glass, and it has continued to fall for a great many years, notwithstanding I have used many celebrated preparations for restoration. Seeing your advertisement I was induced to give your article a trial, and to my joyful astonishment, found, after a few applications, that my hair became firmly set, and assumed a glossy and beautiful appearance; and by the time I had used a quart bottle, my bald head was covered over with a young and vigorous growth of hair, which is now from one to two inches and a half in length, and growing fast. Yours truly,

HENRY GOODRICH.

CHARLESTOWN, Mass., Aug. 9, 1855.

GENTS:—Nothing but a duty and sympathy that I feel to communicate to others that are afflicted as I have been would induce me to give this public acknowledgement of the benefit I have received from Prof. Wood's Hair Restorative. When I first commenced using it, my hair was quite gray, and in spots entirely bald. I have now used the Restorative about five months, and my hair is entirely restored to its original color, brown, and the new hair is as ever true in length on the spots where it was bald. I have also been much gratified at the healthy moisture and vigor of the hair, which before was dry, and it has ceased to come out as formerly.

Respectfully yours, &c.,

MRS. R. A. STODDARD.

From Mrs. Ingalls, a well known actress in Boston.

BOSTON, Oct. 19, 1855.

GENTS:—At your request, and being so highly pleased with the effect of the Restorative, I am free to state that my hair had become quite thin, and entirely white. I have for the last five years been in the habit of using dye, but leaving of the prejudicial effects of this article, I was induced to try it. My hair has been restored to its original thickness, and also to its former color, which is light brown. Yours respectfully,

MRS. INGALLS.

The following is from the Pastor of the Orthodox Church, Brookfield:

BROOKFIELD, Mass., Jan. 15, 1855.

PROF. WOOD—Dear Sir—Having made trial of your Hair Restorative, it gives me pleasure to say, that its effect has been satisfactory in removing inflammation, dandruff, and a cone of tendency to itching, with which I have been troubled from my childhood, and has also restored the hair, which was becoming gray, to its original color. I have used no other article with anything like the same pleasure and profit.

Yours truly,

J. K. BRAGG.

(From the Jersey City Telegraph.)

WHAT IS IT?—This Wood's Hair Restorative?—is a question asked daily by hundreds. We answer without hesitation, we know of contradiction, that it is the only article known which will actually fulfil its promises for the beard, hair, or whiskers, or *will stop the falling off, or will restore to a natural colour*. It is not a hair dye, but a speedy and efficacious Restorative.

Professor Humphrey's
SPECIFIC
Homœopathic Medicines,
....FOR....
Families, Travelers, and others.

THESE Medicines have been carefully prepared, with a view of supplying families and others with *Specifics Remedies* against all the more common diseases which occur in every day life. The list includes not only remedies for all the more common diseases, such as Coughs, Colds, Headaches, Derangements of the Stomach, Fever, Worm Complaints, Diarrhœa, &c., but also for those more sudden and violent diseases which require to be perfect on the spot at the moment, such as Cramp, Cholera, Dysentery, Inflammation, &c., for whose treatment it is very important always to have the proper remedies on hand. There are also remedies for those more delicate Female derangements which a lady finds it so difficult to disclose, but yet so freedom from which contributes so much to the happiness and enjoyment of life.

These Medicines are prepared in the form of large Sugar Pellets, one of which is sufficient for the largest dose, and put up in boxes properly labelled. Each box contains 20 or 40 Pellets, and 5 boxes, for the different kinds, are enclosed in a case, accompanied with a small Manual or Book of Directions, giving a concise description of the diseases treated, and directions for giving the medicines, diet, &c., necessary for a cure. Cases, also, containing four or six of the small boxes, are put up, which may be supplied with any of the different kinds at the option of the purchaser.

The advantages of Specific Homœopathic Medicines.—In prescribing other Homœopathic Medicines a dozen or twenty will be recommended for a cough, headache, diarrhœa, or fever, and much care, study, and discrimination is required to select the proper one. But here you have a Specific Remedy for each particular disease, and home are able to use them with benefit and precision without that labor and study which the business man is so illy able to bestow, and without that research and examination which, to the mother, nurse, or invalid, is so perplexing, annoying, and unsatisfactory. The advantages are so obvious as to commend them to all.

Prepared by Dr. F. HUMPHREY, Auburn, N.Y., and sold by O. K. WALKER, Agent for Maine, at 24 Main street.

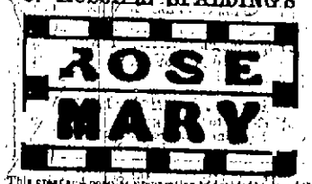
Entered according to Act of Congress in the year 1855, by J. Russell Spalding, in the Clerk's Office of the District Court of Massachusetts.

J. RUSSELL SPALDING'S



This great and popular preparation is decided by one of the elegantest and best articles in the world for the

HAIR!

It imparts a richness and brilliancy, cleans, ornaments, invigorates, nourishes, removes dandruff, relieves headache, and has probably been used for twenty years preventing the falling off in the hair with as much success as any article ever known. It has stood the test of time and use, and all can rely upon it.

AYER'S Cathartic Pills
(SUGAR COATED,)

ARE MADE TO

CLEANSE THE BLOOD AND CURE THE SICK

Invalids, Fathers, Mothers, Physicians, Philanthropists, read their Effects, and judge of their Virtues.

FOR THE CURE OF

Headache, Sick Headache, Foul Stomach.

BUFFALO, BINGHAMTON, Feb. 1, 1855.

DR. J. C. AYER: Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once. If they will cure others as they do me, the fact is worth knowing.

Yours with great respect, ED. W. PRESTLE,

Clerk of Steamer Clarion.

Bilious Disorders and Liver Complaints.

DEPARTMENT OF THE INTERIOR,

WASHINGTON, D. C., 7 Feb., 1855.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is prompt and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of bilious disease so obstinate that it did not readily yield to them.

Fraternally yours, ALONZO BALL, M. D.,

Physician of the Marine Hospital.

Dysentery, Relax, and Worms.

POST OFFICE, HARTLAND, CO., MICH., Nov. 16, 1855.

DR. AYER: Your Pills are the perfection of medicine. They have done my wife more good than I can tell you. She had been sick and pining away for months. Went off to be doctored at great expense, but got no better. She then commenced taking your Pills, which soon cured her, by expelling large quantities of worms (dead) from her body. They afterwards cured her and four children of bloody dysentery. One of our neighbors had lingered and wasted away with two doses of your Pills, while others around us paid from five to twenty dollars doctors' bills, and got much fine, without being cured entirely even then. Such a medicine as yours, which is actually good and honest, will be prized here.

OLIV. J. GRIFFIN, *Postmaster.*

Indigestion and Impurity of the Blood.

From Rev. J. V. Hitchcock, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in Boston. They regulate the organs of digestion, and purify the blood. They are the very best remedy I have ever known, and I can confidently recommend them to my friends.

Yours, J. V. HITCHCOCK.

WARSAW, WYOMING CO., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN G. MEACHAM, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From the Prominent Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is good in medicine. They have cured my little daughter of the most malignant form of Scrofula, which had been on her hands and feet that had passed through the hands of the doctors for years. Her mother has been long grievously afflicted with tetter and pimples on her face, and in her hair. After our child was cured, she also tried your Pills, and they have cured her.

ASA MORGRIDGE.

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Hawks, of the Methodist Episc. Church.

PULASKI HOUSE, SAVANNAH, GA., Jan. 6, 1855.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A fold spell set in my limbs and shoulders, excruciating neuralgic pains, which ended in chronic rheumatism. Nothing standing, I had the best of physicians, the disease grew worse and worse, until, by the advice of a fellow-sufferer in Baltimore, Mr. Jackson, I tried your Pills. The effects were wonderful, as you know. By persevering in the use of them I am now entirely well.

SENATE CHAMBER, BATON ROUGE, LA., 5 Dec., 1855.

DR. AYER: I have been entirely cured by your Pills of Rheumatic Gout—a painful disease that had afflicted me for years.

VINCENT SIDELLE.

For Dropsy, Plethora, or kindred Complaints, requiring an active purge, they are an excellent remedy.

For Costiveness or Constipation, and as a Dinner Pill, they are a valuable adjunct.

Fits, Suppression, Paralysis, Inflammation, and even Deafness are Partial Blindness, have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in skillful hands, is dangerous in a public pill, from the frightful consequences that frequently follow its injudicious use. These contain no mercury or other mineral substance whatever.

AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF

COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, INCIPIENT CONSUMPTION,

and, for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Through the entire form and almost every hamlet of the Atlantic States, its wonderful cures of pulmonary complaints have made it already known. Nay, few are the families in any civilized country in this continent without some painful experience of its efficacy, and fewer yet the young men who, we may add, have lost among them some dear friends, snatched from the clutch of over the shoulder and danger to the disease of the lungs. While it is the most powerful and sure to yield to treatment for the formidable and dangerous diseases of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should keep it in store against the sudden enemy that steals upon their unprepared. We have abundant grounds to believe the Cherry Pectoral saves more lives by its timely employment, than those it cures. Keep it by you, and you can confide while they are curable, not neglected or abused, that a cold, cough, or even the incipient consumption, will not fasten its horrible fangs upon the victim, but your life away. All know the danger of the lodgment of lung disorders, and as they know it, the virtue of a remedy that can meet the same in its incipient form will at once decide the best to rely on. If the disease be allowed to fasten, the victim will suffer long for their care.

Singer's Sewing Machines.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or leather they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES ALWAYS OPERATE PERFECTLY, being strong, durable, and complete in contrivance and workmanship. A perfect Sewing Machine, key, unemployed, affords a clear profit of $1000 a year; but an imperfect one is a cause of constant vexation and loss. The entire *reliability* of our machines is one great reason for their unparalleled popularity.

MACHINES FOR FAMILY SEWING, of a frail and delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye, not to perform substantial work. The truth is, family sewing machines ought to be stronger than any other, because they go into less skillful hands than when sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes must be best for family use, and they are Singer's. The specs. of our machines has lately been doubled. No other can compare with them in quantity of work.

☞ New machines, of the latest improved style will be exchanged on liberal terms for old sewing machines, of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines.

N. B.—All persons dealing full information about sewing machines, can obtain it by applying for a copy of "I. M. Singer & Co's Gazette," a paper devoted entirely to the subject. It will be sent gratis.

THE GREATEST MEDICAL DISCOVERY
Of the Age.

Dr. KENNEDY, of Roxbury, has discovered the end of our *common pasture weed*, a remedy that cures

EVERY KIND OF HUMOR,

From the worst Scrofula down to a common Pimple.

He has tried it in over 1100 cases, and never failed except in two cases, (both thinder humors) he has now in his possession over two hundred certificates of its virtues, all within twenty miles of Boston.

Two bottles are warranted to cure a running sore mouth.

One to three bottles will cure the worst scald pimples on the face.

Two to three bottles will clear the system of blotches.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst case of Erysipelas.

One to two bottles are warranted to cure blind worm in the eyes.

Two bottles are warranted to cure running in the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruption of the skin.

Two to three bottles are warranted to cure the worst cases of ringworm.

Two to three bottles are warranted to cure the most desperate case of rheumatism.

Three to four bottles are warranted to cure the salt rheum.

Five to eight bottles will cure the worst cases of scrofula.

A benefit is always experienced from the first bottle; and a perfect cure is warranted when the above quantity is taken.

Reader, I meddled over a thousand bottles of this in the city of Boston. I know the effect of it in every case. So sure as water will extinguish fire, so sure will this cure humor. Never add a bottle of it but that said another; after a trial it always speaks for itself. There are two things about this herb that appear to me surprising; first, that it grows in our pastures, in some places quite plentiful, and yet its value has never been known until I discovered it in 1840—second, that it should cure all kinds of humor.

In order to give some idea of the added rise and great popularity of the discovery, I will state that in April, 1852, I peddled it, and sold about six bottles per day—in April, 1854, I sold over a thousand bottles per day of it.

Some of the wholesale Druggists who have been in business twenty and thirty years, say that nothing in the shape of patent medicine was ever like it. This is a universal praise of it from all quarters.

In my own practice I always kept it strictly for humors—but since its introduction has gained fatally medicine, great and wonderful virtues have been found in it that I never suspected.

Several cases of epileptic fits—a disease which was always considered incurable, have been cured by a few bottles. O, what a mercy it will prove effectual in all cases of that awful malady—there are but few which are scarcely more off than I live. I know of several cases of Dropsy, all of them aged people cured by it. For the various diseases of the Liver, Sick Headache, Dyspepsia, Ague, Fever and Ague, Pain in the Side, Disease of the Spine, and particularly in Diseases of the Kidneys, &c., the discovery has done more good than any medicine ever known.

No change of diet ever necessary—eat the best you can get and enough of it.

Directions for Use.—Adults one tablespoonful per day. Children over ten years, dessert spoonful—Children from five to eight years, teaspoonful. Above directions can be appreciable in constitutions, take sufficient to operate on the bowels twice a day.

The Principal Office for the Sale of Medicine in the British Provinces, is at the Drug and Medicine Establishment of H. H. HAY, 13 & 15, Market Square, Portland, Maine, to which business should be addressed. Sold by wholesale Druggists throughout the United States and British Provinces.

PRICE $1.00.
